

Manitoba Economic Highlights

Economic Overview

Real Gross Domestic Product

- In March, the Manitoba Bureau of Statistics estimated that Manitoba's real GDP contracted by 0.9% in 2009. Statistics Canada estimates that the Canadian economic shrank by 2.5%.
- In 2010, the Manitoba economy is forecast to grow 2.8% below Canada's 3.4% growth and 2.8% in 2011 equal to the national growth rate.
- Statistics Canada estimated that Manitoba real GDP at basic prices by industry declined 0.2% in 2009 the second best performance among the provinces. Canada is estimated to have declined by 2.9%

Real GDP (% Change)

Consumer Price Index

- In the first seven months, the Manitoba CPI increased 0.8% compared to the 1.6% Canadian increase. The clothing, shelter and food components of the Manitoba CPI are all lower on a year-to-date basis.
- In 2009, the Manitoba CPI increased 0.6% compared to the 0.3% national increase.

- Manitoba real GDP economic performance exceeded Canadian performance for 4 consecutive years from 2006 to 2009.
- Manitoba's population increased by 16,517 in the year ending April 1, 2010, the best performance since at least 1972.
- Manitoba outperformed the national economy in virtually all of the major economic indicators in 2009.
- In 2010, Manitoba has the second lowest unemployment and youth unemployment rate.
- In 2009, there were only 65 business bankruptcies in Manitoba, the lowest level since 1977.

- Food (5.3%) had the largest increase while energy declined 11.4% in 2009

Labour Market

Employment

- In the first eight months of 2010, Manitoba's employment increased by 10,400 or 1.7% above the national increase of 1.4%.
- In 2009 Manitoba's employment increased by 200 compared to a national decrease of 276,900. Manitoba was one of only three provinces to post an increase in employment last year.

Employment (% Change)

	2009	2010ytd
Manitoba		
Total Employment	0.0	1.7
Full-Time	0.1	0.6
Part-Time	(0.1)	6.6
Canada		
Total Employment	(1.6)	1.4

Unemployment Rate

- In the first eight months of 2010, Manitoba's unemployment rate was 5.4%, second lowest behind Saskatchewan. The youth unemployment rate was 11.3%, also second lowest in Canada.
- Historically, Manitoba's unemployment rate has averaged 2.0 to 2.5 percentage points below Canada. In 2009, this spread increased to 3.1 points.
- From 1998 to 2009, Manitoba had the lowest annual unemployment rate among provinces five times, and the second-lowest rate five times.

Average Weekly Earnings

- In the first six months of 2010, average weekly earnings in Manitoba were up 1.6% below Canada's increase of 3.1%.
- In 2009, average weekly earnings in Manitoba were up 2.8%, above Canada's increase of 1.6% and fourth highest among provinces.

Population

- As of April 1, 2010, Manitoba's population stood at 1,232,654, a one-year increase of 16,517 persons. This 1.4% increase was fourth best among provinces.
- The official population for a year is based on July 1st which for Manitoba in 2009 was 1,221,964, an increase of 1.3%
- The most significant factor driving Manitoba's population growth is the Provincial Nominee Program. Since it began immigrants entering Manitoba under PNP has steadily increased.

Net Migration

- In the year ending April 1, 2010, 11,080 more people moved to Manitoba than left.
- During the same period, net international immigration totaled 12,508, more than the net inter-provincial out-migration of 1,428. This is the smallest out-migration since 1985.

Economic Activity

Manufacturing Sales

- In the first six months of 2010, Manitoba manufacturing sales declined 7.3% compared to a 10.7% national increase.
- In the first six months of 2010, three Manitoba industries increased. Petroleum, primary metals and other non-durables lead the growth industries while 11 industries have declined.
- In 2009, Manitoba manufacturing sales decreased 11.1% to \$14.6 billion. Canadian sales declined 17.4%. Manitoba's performance bettered the national average for the ninth consecutive year.
- In 2009, three Manitoba industries increased sales led by electrical appliances (14.4%) and machinery (0.9%) while eleven industries declined with primary metals, printing, wood and paper industries leading the losses.

Industries with Strongest Growth in the Value of Manufacturing Sales (% Change)

	2009	2010ytd
Petroleum & Coal	0.3	14.5
Primary metals	(29.8)	13.4
Oth. non-durables	(6.7)	13.3

Farm Cash Receipts

- **NOTE: Statistics Canada will not be releasing second quarter data until November.**
- In the first quarter of 2010, Manitoba cash receipts declined 4.4% to \$1.4 billion.
- Crop receipts decreased 6.9% due to declines in specialty and forage, vegetables and oilseeds. Wheat receipts rose 9.1%. Livestock receipts were down 8.8% on weakness in cattle and hog receipts. Direct payments increased 55.5%.
- Manitoba cash receipts decreased 0.5% in 2009 to \$4.8 billion. Manitoba's decline of

0.5% was the third best performance among provinces.

- Crop receipts were up 1.1% with weakness in grains and specialty and forage receipts offset by gains in oilseeds and vegetables. Livestock receipts declined 4.8% with weakness in cattle offsetting gains in hog receipts. Direct payments are estimated to have risen 7.2%.

Farm Cash Receipts (% Change)		
	2009	2010ytd
Canola	5.3	(15.3)
Wheat	(4.9)	9.1
Hogs	1.7	(4.3)
Cattle	(18.1)	(23.0)

- Agricultural diversification has altered the structure of the sector. In 1990, wheat accounted for 29% of farm cash receipts but by 2009 only 16.9%. In 2009, the largest receipts source was canola (24.7%) followed by wheat, hogs (15.0%) and cattle (8.9%).

Retail Sales

- In the first six months 2010, Manitoba retail sales increased 6.2%, above the Canadian increase of 6.1%. Manitoba sales rose on the strength of motor vehicles (13.5%), health and personal care (12.4%), gasoline (11.6%), and home furnishings (11.1%).
- In 2009, Manitoba retail sales declined 0.4% better than the 2.9% decline in Canada. The decline in 2009 retail sales was led by gasoline (-11.3%) and motor vehicle (-5.2%) sales. Recreation and music (11.4%), health and personal care (8.0%) and general stores (5.4%) have the largest increases.

Investment

- Statistics Canada's Private and Public Investment Survey from February 2010 shows that Manitoba's 2009 capital investment increased 4.0%, second highest among provinces. Manitoba was one of only four provinces to have an increase in investment in 2009. Investment in Canada declined 11.4%.

- The Survey shows that Manitoba's private investment decreased 8.7% less than half the national decline of 17.6%. In 2009, private capital investment accounted for approximately 63% of capital investment in Manitoba.
- Manitoba's public investment increased 36.1%, second highest among the provinces and significantly above the 13.4% increase in Canada.
- A number of major investment projects were underway in 2009, including the Winnipeg Floodway expansion, the Wuskwatim hydro-electric dam, the Keystone Pipeline and a new airport facility.
- In 2010, capital investment is projected to decrease 1.1% below the Canadian increase of 4.4%. Manitoba's private investment is projected to decrease 7.8% and public investment to increase 10.3%.

Housing Starts

- In the two quarters of 2010, Manitoba starts increased 49.4%, below the national increase of 51.6%. Single starts rose 42.5% while multiples increased 71.3% to 709.
- In 2009, Manitoba housing starts declined to 4,174 units, a 24.6% decrease and better than the 29.4% national decline. Single starts are down 17.6% while multiples declined 38.7%.
- The 4,174 housing starts in Manitoba in 2009 is the lowest level since 2003 but is still better than any other year since 1988.
- In the first eight months of 2010, Manitoba urban housing starts increased 55.9% while Canadian starts were up 43.3%. Manitoba single starts rose 31.5% while multiples increased 100.0% to 1,1290

Housing Starts (All Areas) (% Change)

	Manitoba	Canada
2007	14.1	0.4
2008	(3.5)	(7.6)
2009	(24.6)	(29.4)
2010ytd	49.4	51.6

Note: Changes are calculated relative to the corresponding period in the previous year.

Building Permits

- In the first seven months of 2010, the value of Manitoba building permits increased 11.7%. Permits in Canada were up 31.5%.
- The value of Manitoba residential permits increased by 31.1% while non-residential permits declined 15.3%. The non-residential decline is led by institutional and government construction.
- The value of permits in Winnipeg rose 24.0% while outside of Winnipeg they decreased 3.8%.
- In 2009, the value of building permits in Manitoba decreased 4.6%. Non-residential permits were up 16.1% while residential permits decreased 14.7%. Canada permits were down 13.3%.

Bankruptcies

- In the first six months of 2010, business bankruptcies were unchanged at 41 in Manitoba and declined 24.8% in Canada.
- In the first six months of 2010, consumer bankruptcies decreased 17.9 Manitoba and 18.6 Canada.
- In 2009, business bankruptcies decreased 36.9% to 65 in Manitoba, and declined 12.1% in Canada. The 65 Manitoba bankruptcies were the fewest since 1977.
- Consumer bankruptcies increased 20.6% in Manitoba below the 28.4% increase in Canada.

Foreign Merchandise Exports

- In the first seven months of 2010, Manitoba exports decreased 11.1%, while Canadian exports were up 10.4%.
- In the first seven months of 2010, Manitoba's U.S. exports decreased 12.4% while non-U.S. exports were down 8.3%.
- In 2009, Manitoba exports decreased 18.2%, while Canadian exports were down 26.5%. Manitoba's U.S. exports decreased 19.6% while non-U.S. exports were down 15.2%.

Foreign Merchandise Exports (% Change)

	2009	2010ytd
All Countries	(18.2)	(11.1)
U.S.	(19.6)	(12.4)
Non-U.S.	(15.2)	(8.3)

Electricity Sales

- In the first seven months of 2010, the value of domestic sales declined while exports have increased. Mild weather conditions and the rise in the Canadian dollar contributed to slower sales.
- In 2009, the value of Manitoba electricity sales declined. Domestic sales increased while exports were down.
- Approximately 80% of export sales are to the United States with the balance to other Canadian provinces. Export sales to the U.S. are priced in \$US; consequentially the decline was substantially influenced by the rising Canadian dollar.
